How many good Green Cymbidiums do you have?

Why Greens?

Here are some of the reasons why every well balanced Cymbidium collection should include carefully bred **green** Cymbidium seedlings:

1. Good **greens** are among the most sought after of all colors at the present time.
2. Their brilliant eye-catching color stands out in any collection.
3. Florists the nation over expound the merits of **green** Cymbidiums as a corsage flower.
4. The breeding of these hybrids stems from carefully chosen parent stock, many of which are internationally famous.
5. Seedlings of this size are beyond the high mortality, infant stages of growth.
6. You can save substantially by ordering the entire list which includes an extra bonus plant, or, if you have limited space, we offer a considerable savings on any portion of the list.

SPECIAL OFFERING OF CYMBIDIUM SEEDLINGS WITH GREEN EXPECTANCY

Special Listing #27

1. **S-464 MIDAS X IRINA var. CELESTE**.....\$7.50
This cross should give grand sprays of large, well shaped flowers, predominantly greens, though there may also be some yellows.
2. **S-468 ESMERALDA, AM. RHS. X IRINA var. CELESTE**..... 7.50
Cascades of well formed, luminous greens borne on arching spikes are expected here. Many will follow the much sought after Esmeralda parent
3. **S-475 LOWIO-GRANDIFLORUM, WESTONBIRT var., FCC. RHS. X IRINA var. CELESTE**..... 7.50
Expectancy of this cross is handsome pendant spikes of richly colored, bright green flowers, with white throats and deep lips.
4. **S-476 BLUE SMOKE var. PERNOD X ROSETTE var. REGAL**..... 7.50
Should reflect the famous Blue Smoke parentage. Sturdy greens with bold lips are expected from this cross.
5. **S-1324 LOWIANUM, fine green X IRINA var. CELESTE**..... 7.50
Lowianum throughout the years has proven to be one of the most satisfactory parents of the species in the genus. Many worthwhile greens are hoped for here.
6. **S-1331 WOODHAMSIANUM, concolor X MIRETTA var. GLENDESSARY**..... 5.00
Although we do expect some concolor forms here, we feel this is a new combination. The famous parents of Miretta (Claudette var. Invicta X Mirabel, AM. RHS.) may enter into the picture.
7. **S-1336 BLUE SMOKE var. CALUMET X CLAUDONA var. GLENDESSARY**..... 5.00
The bloodline of both parents is very distinguished in the realm of breeding. Dark green flowers with boldly marked lips will dominate this cross. A very robust grower in which we place much confidence.
8. **S-1343 SHIRLEY X RAMBODA**..... 7.50
The popularity of Shirley as a parent has grown by leaps and bounds. Combined with Ramboda, we expect some sparkling greens.
9. **S-1345 ERICA SANDER var. BOWMAN X ADARISSA**..... 5.00
Both parents are exquisite chartreuse varieties with fine spike habits. Clarity of color is especially emphasized here. Erica Sander has proven itself in such plants as Heathrow, Bodmin Moor, Dabchick, and Michael Sander. Adarissa is also a proven breeder.
10. **S-1369 ROMEO X SHIRLEY**..... 7.50
We are continually besieged with requests for early blooming seedlings of good breeding. We believe this cross will incline to be early because of the parentage of Romeo (grandiflorum X Pearl var. Magnificum, FCC. RHS.). Good greens of clear color expected.
11. **5105 LOWIANUM X GULF STREAM**..... 7.50
Long, sturdy spikes of iridescent greens should come from this worthwhile cross.
12. **AURELLA X CLAUDETTE**..... 7.50
Hybrids of this type make up the modern greens of today. We expect many good greens will be the result of this cross.

The list price of the twelve crosses offered is \$82.50. If six or more plants are ordered of any one cross, or one each of six or more different crosses, ten percent discount will be allowed. If twelve plants are ordered, twenty percent discount will be allowed.

All plants are exceptional sturdy growers. The \$5.00 size seedlings have leaves from 12" to 14" long, while the \$7.50 size seedlings have the first strong seedling bulb with second growth developing.

All plants will be shipped promptly upon receipt of order. Orders will be filled in rotation. All items listed are subject to prior sale.

This offer expires March 15, 1954

As a special inducement, in addition to the discounts allowed on the group, we will include with each order of twelve seedlings, without charge, one sturdy seedling with leaves from 12" to 14" long. You may choose from below crosses:

S-1319 Peri (*President Wilson* var. *Spring Gold* X *Pauwelsii* var. *Comte d' Hemptine*, FCC. RHS.)

S-1346 Ceres var. F. J. Hanbury, FCC. RHS. X Monte Rosa, fine rose

S-1353 Rosette X Joy Sander var. Sirdar
